WHAT'S NEW

BELL BOTTOMS

A combination of natural fibers and dyed hides delivers a unique textural quality to Barclay Butera's new denim-inspired rugs; but it's the striking contrast of the bronze geometric pattern that elevates the rug to statement-piece status. *Price upon request, through Nourison, nourison.com, barclaybutera.com.*

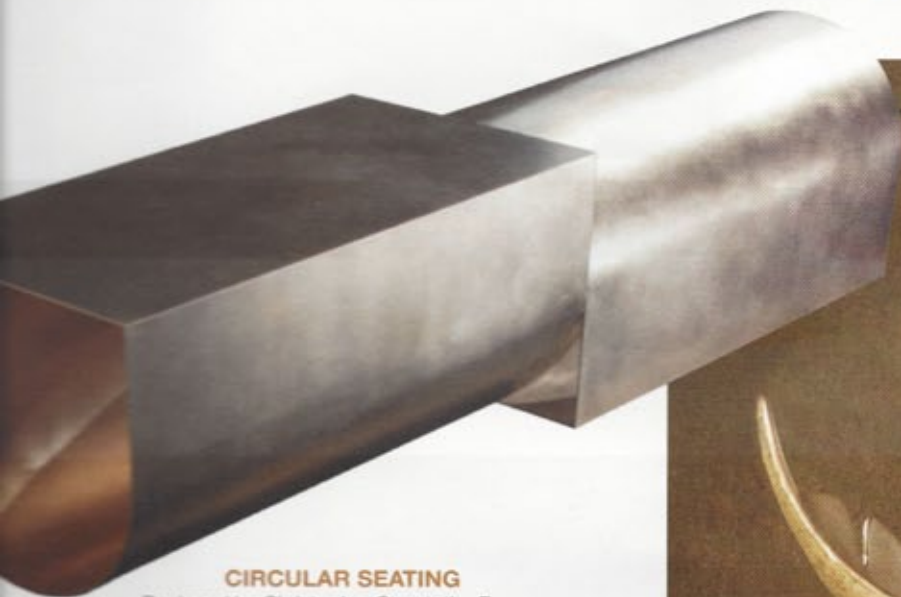

RICH LEATHER

Golden Bronze is one of four glamorous metallic colors available in Edelman's Demi Cow (or Night Life) collection. Crafted from European aniline-dyed cowhide, this seductive upholstery option will bring new life and a little flair to a tired space. *Price upon request. D&D, (T) edelmanleather.com.*

ACROSS THE UNIVERSE

Envisioned as a smaller or companion piece to the Kronos pendant, the Kronos sconce in bronze—designed by Barry Dixon for Avrett—exudes a cosmic vibe; various pieces of the sconce are free moving, resulting in orbit-like motions. *Price upon request, through John Rosselli & Associates, johnrosselli.com, barrydixon.com, avrett.com.*

CIRCULAR SEATING

Designed by Christopher Stuart, the Bronze U bench is an exploration on the circle and its simplicity. The two pieces of the bench are made from a rolled sheet of raw bronze, each forming a half circle; it's only when the piece is viewed from the side that the appearance of a true circle is formed. *\$18,150, thefutureperfect.com.*

LUNAR LANDING

Arching upward, like a crescent moon cradled on its back, the Bronze Lunette Vessel, designed by David Hoptman for Stone Forest, is a dramatic, sculptural piece that combines glittering allure with adroit artistry. *Price upon request, through Klaffs, klaffs.com, stoneforest.com.*
