

Showhouse at Reynolds Plantation

The *Southern Accents* Showhouse at Reynolds Plantation celebrates relaxed waterfront living with color-saturated interiors that frame views of both the lake and the golf course

Upper Sitting Room

In the light-filled sitting area on the second floor, Howard artfully injected '70s flair with glossy white walls evocative of patent leather. A custom table serves as a place for a puzzle, a late-night game of cards, or an afternoon cup of tea with a neighbor.

Girl's Room

Inspired by the movie *The Holiday*, Howard indulged in a bit of girlish fantasy by creating a whimsical tent perfect for a weekend sleepover, with bedding underneath the floor-to-ceiling canopy and stars dangling above. Seven-year-old Emily Little painted the art above the chest.
