**MASTER BEDROOM** | The master bedroom is a heavenly haven swathed in a serene blue with coordinating bedding. A tray ceiling and the angle of the walls draw the eye upward.

**MASTER BATHROOM** | The master bathroom features distinctive décor. A delicate floral chandelier mimics the colors in the rest of the room. A "carpet" of mosaic tile is a low-maintenance, striking alternative to an area rug. Pendant lights over the vanity are spaced far enough apart so as not to interfere with reflections in the mirror.

**SITTING AREA** | French doors from the master bedroom sitting area lead to a balcony with a spectacular view. Built-in cabinets on both sides of the fireplace make the most of space beneath the sloped ceiling.
